- Adding value to the contracts process
- Identifying positive and negative emotions in your industry
- How to Speed read the Fin Review

This program is designed to give your people tips that the experts use to engage an audience **in any subject**. Would you believe that *How to Speed read the Fin Review* is one of our most popular presentations?

## **Who should attend?**

This program is ideal for people who need to make presentations on seemingly dry topics. It's perfect for anyone who has to deliver presentations. Don't forget your sales team too, as some of their presentations may need a bit more audience engagement too.

## **Action Plan**

- To make the target audience's experience more interesting and lively
- To understand the engagement drives of an adult audience
- To make dull information interesting
- To understand how to communicate by using NLP
- To build experiential learning activities into your program
- To inject fun and excitement without the cringe factor
- To set a positive and contagious mood
- To build creative breaks and challenges into the day
- To measure the impact beyond those happy sheets
