

TRAIN THE TRAINER TRAINING

“If you don’t know where you’re going, any road will take you there” – Lewis Carroll

Here’s a course that will give you the key skills to be a dynamic trainer. The train the trainer course includes tips on how best to utilise modern learning technology too. It also gives you ideas on what learning technology should be avoided. The train the trainer course will also take participants back to basics. When was the last time you ran a dynamic training session with just a whiteboard and some flip chart paper?

This train the trainer course pivots around the 70:20:10 model. Participants discover tools to help embed organisational learning. So, if you would like to boost levels of audience engagement and learning, then this course is perfect. This training has been designed for new and experienced trainers. Your experienced trainers will learn some new skills to engage the newer generations entering the workplace. Previous participants have found that the course helps them to move away from “slide decks” and “stand and deliver” formats.

NUTS AND BOLTS

Would you like to attend this program?

For maximum effectiveness, this course is best conducted as an in-house program.

Venue: For your convenience, you can choose to conduct this course at your workplace. Alternatively, we can provide a training venue at a small additional cost.
