

FIGURES OUT FINANCES

"The real measure of wealth is not how much you have, but how much you can do with what you have." - Anonymous

Effective financial management is crucial for successful leadership. This workshop will provide practical strategies for optimising financial management and ensuring the sustainability and growth of organisations. Participants will learn how to make strategic financial decisions that directly impact service delivery, ensuring the sustainability and growth of their organisations. Join us and learn how to optimise resource allocation for the sustainability and growth of your organisation!

Key Course Content:

- Understanding the importance of financial management in leadership roles within health and community services
- Developing skills to effectively allocate and manage funds for service delivery and community support
- Recognising the direct impact of financial decisions on the overall success and sustainability of organisations in this sector
- Learning how to navigate budgetary constraints and negotiate for adequate funding
- Practicing efficient and responsible resource allocation to optimise the use of available funds
- Learning how to communicate and collaborate with stakeholders regarding financial decisions and budgeting processes
- Developing strategies for maintaining financial sustainability and growth in the face of changing economic conditions.

Target Audience:

The course can be tailored for the specific cohort whether it be the leadership team, another group of managers/team leaders or employees.

Duration:

This course is available as a 1-day course or a truncated ½ -day course.

Delivery:

This course can be delivered both in-person or virtually. For virtual delivery, we can use our virtual platforms or your organisations.
